Some no. include reports compiled from information furnished by State Foresters (and others).
Trying Cases to Win - Evidence: Weapons for Winning Volume III focuses on lay opinion testimony
and expert witnesses. In addition to analyzing lay witness testimony, this volume provides examples
of such testimony in the context of an actual trial. When it comes to expert testimony, staying up to
date on the latest case law is critical. As a result of Daubert and its progeny, expert testimony is
scrutinized more carefully by trial judges in state and federal courts. It is important to know how
lower courts have applied the Supreme Court's standard for expert testimony as codified in Federal
Rule of Evidence 702. In Trying Cases to Win - Evidence: Weapons for Winning Volume III, author
Herbert J. Stern delivers practical, real world guidance on how to use the Rules of Evidence to
advance your case and stop your adversaries from building theirs. Popular Mechanics inspires,
instructs and influences readers to help them master the modern world. Whether it's practical DIY
home-improvement tips, gadgets and digital technology, information on the newest cars or the
latest breakthroughs in science -- PM is the ultimate guide to our high-tech lifestyle. Some no.
include reports compiled from information furnished by State Foresters (and others). In the 1960s
and 1970s, John Deere's tractors evolved dramatically from small machines into large, powerful
tractors with modern advances and muscular engines; it was a period of the greatest changes since
the 1920s. Deere christened these tractors the New Generation. This book in the Tractor Legacy
series examines these Big Green machines in detail, with archival and current photography of
restored tractors, a thorough historical text, and details of model specifications and variations.
