Recent Trends in Conservation of Art Heritage is a humble dedication of the contributors to Dr O.P. Agrawal. There is an increasing awareness in the world today of the need for conservation everywhere, and it is but natural that attention would focus on the conservation and preservation of art heritage that

mankind has created and inherited over the ages. The book, the only one of its type, should prove to be of immense interest to art lovers conservation students and conservationists curators of museums all over the world. 12 Years CBSE Board Class 12 Chemistry Skill-wise & Chapter-wise Solved Papers (2008 - 19) 7th Edition is altogether a new approach for Practicing, Revising and Mastering Chemistry for Class 12 CBSE Board exams. The book is written by India's most popular author in Chemistry, Dr. O. P. Agarwal. The book covers solutions to the Chemistry

questions that appeared in the 2008 - 2019 Question papers of CBSE Board Delhi/ All India/ Foreign papers. The book provides a unique and innovative chapterisation defined on the basis of Level of Difficulty - Concept/ Application/ Skill. Questions in each chapter are then divided among the various NCERT chapters. Some of the typical chapter names are: Define the following. Explain this phenomenon. What happens when? How will you complete the following? How will you carry out given conversions? How will you distinguish the following by chemical tests? What is the

mechanism of the following reactions? Why do the following happen? etc. This title contains an Access Code along with instructions to access the Online Material. In case you face any difficulty, write to us at ebooks.support@aiets.co.in. • The book "40 Years IIT-JEE Advanced + 16 yrs JEE Main/ AIEEE Topic-wise Solved Paper MATHEMATICS with Free ebook" is the first integrated book, which contains Topic-wise collection of past JEE Advanced (including 1978-2012 IIT-JEE & 2013-16 JEE Advanced) questions from 1978 to 2016 and past JEE Main

(including 2002-2012 AIEEE & 2013-16 JEE Main) questions from 2002 to 2016. • The new edition has been designed in 2-colour layout and comes with a Free ebook which gives you the power of accessing your book anywhere - anytime through web and tablets. • The book is divided into 23 chapters. The flow of chapters has been aligned as per the NCERT books. • Each divides the questions into 9 categories (as per the NEW IIT pattern) - Fill in the Blanks, True/False, MCQ 1 correct, MCQ more than 1 correct, Passage Based, Assertion-Reason, Multiple Matching, Integer Answer MCQs and

Subjective Questions. • All the Screening and Mains papers of IIT-JEE have been incorporated in the book. • Detailed solution of each and every question has been provided for 100% conceptual clarity of the student. Well elaborated detailed solutions with user friendly language provided at the end of each chapter. • Solutions have been given with enough diagrams, proper reasoning to bring conceptual clarity. • The students are advised to attempt questions of a topic immediately after they complete a topic in their class/school/home. The book contains around 3200+ MILESTONE PROBLEMS IN

CHEMISTRY. How does the FREE ebook help? • Provides the Digital version of the book which can be accessed through tablets and web in both online and offline mediums. • Also provides the AIEEE Rescheduled 2011 paper and 1997 IIT-JEE cancelled paper. • Alternate Solutions to a number of Questions. • Quick Revision Material. Introduction to microbiology; Characteristics of bacteria; Microorganisms other than bacteria; Control of microorganisms; Microorganisms and disease; Applied microbiology. Competition Science Vision (monthly magazine)

is published by Pratiyogita Darpan Group in India and is one of the best Science monthly magazines available for medical entrance examination students in India. Well-qualified professionals of Physics, Chemistry, Zoology and Botany make contributions to this magazine and craft it with focus on providing complete and to-the-point study material for aspiring candidates. The magazine covers General Knowledge, Science and Technology news, Interviews of toppers of examinations, study material of Physics, Chemistry, Zoology and Botany with model papers, reasoning test

questions, facts, quiz contest, general awareness and mental ability test in every monthly issue. JEE Advanced 2017 Question by Question Analysis is an essential component for every aspirant of JEE Advanced 2018. The Analysis lucidly presents the Most Important Concepts, focus of the 2017 examination and the level of Difficulty of each question. Thus making you understand the importance of each chapter or concept. The book further provides you the complete detailed solution of JEE Advanced 2017. This is Alasdair Barcroft's third book on the subject of aloe vera and he believes the aloe vera topic will run and run as more

and more people, both lay people and professional healthcare specialists and therapists alike, begin fully to understand the powerful healing and health-giving properties of this amazing plant. He believes that 'we are still scratching the surface' in terms of aloe vera's vast potential. Aloe vera has been around for over 4,000 years - it has stood the test of time - and it still continues to confound and very often baffle the medical profession and scientific researchers with its complex, silent actions, potent properties and powerful healing benefits. Aloe vera truly is nature's

silent healer. Aloe vera has been known for its wide-ranging healing properties for over 4,000 years, but it is only in the last few decades that scientists have really begun both to realise and understand the enormous scope of this amazing plant's actions and benefits. Medical practitioners, vets, dentists, therapists, nutritionists and many others involved in healthcare throughout the world are finally realising that the anecdotal evidence of the powers of this ancient plant th

A MASTERPIECE
BY Dr. O. P. AGARWAL. The book is written with the objective that, Rather than

memorising mechanisms, the student should be able to work-through the mechanisms based on previous knowledge. The revised edition has been enriched with a lot of new questions on the new pattern of IIT-JEE. Some of the salient features of the revised edition are - More focus on questions based on reaction mechanisms, organic conversions, identification of organic compounds & typical problems involving application of two or more concepts; The book aims at 100% Concept Clarity for the students. The theory is followed by inchapter Exercises

(Test Your Understanding), Illustrative Examples and 3 levels of Exercises. The first exercise is an Objective one with single choice correct MCQs. The second exercise covers questions on the NEW PATTERN of IIT-JEE - MCQs (more than 1 correct), Passages, Multiple Matching and Assertion-Reason Type questions. The final exercise covers quality subjective questions. The book also features a SPECIAL SECTION on revising and strengthening the concepts through passage based questions. The book provides solutions to most of the questions. The development of a vector for the

delivery of therapeutic drugs in a controlled and targeted fashion is still a major challenge in the treatment of many diseases. The conventional application of drugs may lead to many limitations including poor distribution, limited effectiveness, lack of selectivity and dose dependent toxicity. An efficient drug delivery system can address these problems. Recent nanotechnology advancements in the biomedical field have the potential to meet these challenges in developing drug delivery systems. Nanomaterials are changing the biomedical platform in terms of disease

diagnosis, treatment and prevention. Nanomaterials aided drug delivery provides an advantage by enhancing aqueous solubility that leads to improved bioavailability, increased resistance time in the body, decreased side effects by targeting drugs to the specific location, reduced dose dependent toxicity and protection of drugs from early release. In this volume, the contributors have compiled reports of recent studies illustrating the promising nanomaterials that can work as drug carriers, that can navigate conventional physiological

barriers. A detailed account of several types of nanomaterials including polymeric nanoparticles, liposomes, dendrimers, micelles, carbon nanomaterials, magnetic nanoparticles, solid lipid-based nanoparticles, silica nanomaterials and hydrogels for drug delivery is provided in separate chapters. The contributors also present a discussion on clinical aspects of ongoing research with insights towards future prospects of specific nanotechnologies. The book is an informative resource for scholars who seek updates in

nanomedicine with reference to nanomaterials used in drug delivery systems.
